Since 1996

NANXING MACHINERY

TOTAL SOLUTION IN CUSTOMER FACTORY

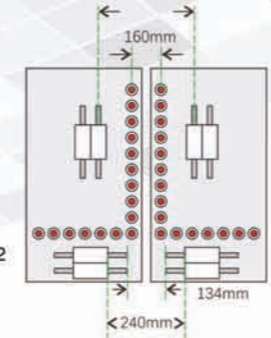

SYNTEC Control, ease of operation
Powerful SYNTEC integration control generates best drilling and routing path, multi-function including flip, mirror and rotate setting by just by click besides standard processing.

Dual clampers
Dual clampers with the design of floating structure and air jet fast move along long guiding rail precisely.135m/min

Top processing:
2 drilling blocks+main spindle
3.5kw world famous main spindle
Vertical drills: 16*2
Horizontal drills: 4*2 in X direction; 4*2 in Y direction

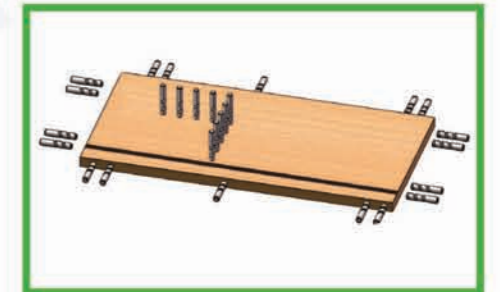

Bottom processing:
1 drilling block+main spindle
3.5kw world famous main spindle, 10 vertical drills

CNC 6-Sided Drilling Machine NBC612D

6 sides drilling, grooving, routing on top and bottom in one cycle

Optimized drill layout and collinear design of two drilling blocks' vertical drills increase the efficiency at lease by 30%.Mini part up to 200*30mm, two panels can be proceed together.

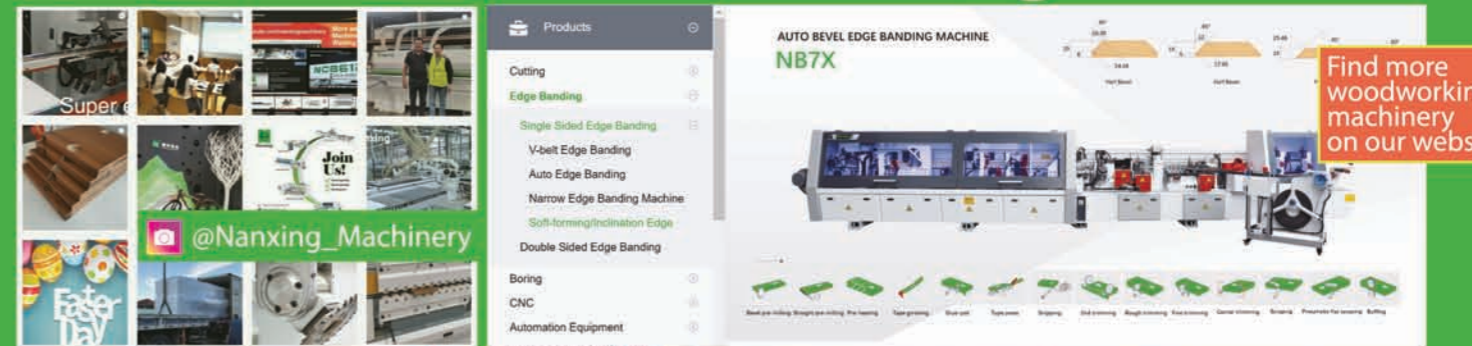

Open port for international popular software

Nanxing·Your Reliable Partner!

We specialize in providing equipment and total solution for panel furniture production, including CNC Nesting machine, Panel Saw, Edge Bander, CNC Drilling machines, CNC through feed Drilling Machines ...etc. which can form production lines and 4.0 Industry lines according to the various requirements. 24 years' experience since 1996, strong and professional production with prompt reaction of the company assure you of great experience of Nanxing professional support.

- Good quality**
Nanxing has invested quite a lot on world class 5 Axis CNC machining Center and robot integration work station for metal works, making its production very top in the woodworking machinery industry. MES System - SOP Processing -Total QC Control guarantee the high quality of your machines.
- Good price**
Higher quality and affordable price generate higher value for your production.
- Good service**
24 hours response and fast spare parts supplying thanks to 60000+ parts storage and global sales and service network. Get professional service at low cost.
- On-time delivery**
Shortest possible delivery time by Nanxing strong production capacity saves your waiting time.
